Vocational Training Authority

「GOVERNMENT OF – **SINDH**」

The Government of Sindh has always supported, (both financially and spiritually) the noble cause of KVTC believing that the differently abled can be enabled and become an integral part of our society.

We thank the Sindh Govt for respecting the evolving capacities of the differently abled children and providing chances to them for preserving their identities.

The students of KVTC are the pride of our nation and commemorating their successes will not only make them perform better but also help us all be a better human being.

DEFENCE HOUSING AUTHORITY – **DHA**

PAKISTAN DEFENCE OFFICERS HOUSING AUTHORITY

DHA has been with KVTC since its beginning during 1991. They have been benevolent in providing a space to house the vocational rehabilitation and are playing a pivotal role in facilitating the activities that are enabling the differently abled to integrate fully in the mainstream society

KVTC family thanks DHA for their unmatched support.

Message from **President**

It has been my privilege to be able to witness and be more involved in KVTC's growth over the past some years, as President of this institution. KVTC embodies purpose and meaning – not just for the vibrant young people who get to connect with a larger community and find commonality in their differences, but also for the incredibly dedicated staff. Together, each individual illustrates how interconnected we are, and how we can come together to create a space of learning, nurturing, play and flourishing the truest sense of the word. KVTC is a beacon for illuminating how differently abled really means uniquely gifted.

“KVTC is another name for inspiration!”

Dr. Akhtar Aziz Khan
President

Message from the **CEO**

KVTC is one of its kind and very close to my heart. Here we are enabling the differently-abled through giving them the vocational rehabilitation and equipping them with the training and skills they would need to perform as an equal and active part of the society and make a career like everyone else.

This is a place of worship where a group of committed professionals make an effort daily and are loved by the students, the same way they love their family.

Over the years I have experienced the joy of giving:
Giving time, a lending hand or even a kind word. All these can make a difference in the lives of those who deserve to be “ENABLED” and become a part of society.

May Allah Almighty bless all of us in this world and hereafter. Ameen!

“Come and join hands to support this cause.”

Senator Abdul Haseeb Khan
General Secretary/CEO

Message from Joint **Secretary**

It's an honour and privilege to write a few words for this amazing, differentially able and very important part of our community and Karachi Vocational and Training Centre, a premier institution of the country. As per our Prime minister Imran Khan Saheb vision, for Pakistan to come out of its challenges we need to develop our economy. For this vision to take place we need all hands on deck and KVTC is the torch bearer for this cause imparting bench mark education, behavioral grooming, vocational trainings, counselling to care givers and encouraging sports in mentally challenged individuals with a special focus on the female gender. The results are phenomenal, not only our students are now getting employed but our athletes have performed with top rankings in even international events like Olympic surpassing our regular athletes in medals counts. To make this initiative expand as the needs are increasing continuously we need you, the corporate sector and the community involvement to the max.

Come and visit KVTC and witness the transformation in the children and see their parents look of satisfaction and pride.

My best wishes and prayers to all who are involved in this heavenly endeavour which is need of the time !!

KVTC Zindabad
Pakistan Paindabad

Let's together bring change in the life of the
forgotten and mostly ignored members
amongst us ”**

Dr Farhan Essa Abdullah
Joint Secretary

Message from the **Treasurer**

I am really glad for being connected with KVTC for years. This institution is helping lots of intellectually challenged children for the betterment of their families and their lives. KVTC took a very rare step towards positivity which is much needed in this era. I just want to say disability is just a matter of perception, these children are the future of our country. Every child deserves honor and normal life to live.

These intellectually capable children are multi-talented and have more capacity to learn and do practical things in life. This institution is giving them a chance to grow in their lives and live it fully, we need more institutions like KVTC for the improvement of society.

I am very proud to be with KVTC by supporting talented children of our society, they have full right to accomplish their ambitions and goals and grow in their life.

“

we need more institutions like KVTC for the improvement of society.

TEAM KVTC

Message from Sr. Executive Administrator

Some of the most wonderful people are the ones who don't fit into boxes.

KVTC has been training such wonderful people and boasts their placement with the mainstream society. Now is high time that employers from all sectors 'recognize' the potential of the differently abled who are capable of getting & holding on to jobs.

Experiences & studies show that employees with challenges have low absentee rate. They can do extra work without hesitating and are simply carrying on normal activities of living when they drive to work, go grocery shopping, pay their bills, or compete in athletic events & participate in the full range of human experiences - including success and failure. These people are able to meet required performance standards, thus making them a good employee.

Being differently abled does not mean they are disabled, it means they have different abilities. KVTC maximizes their potential.

“

Everyone has a right to work, therefore turning our mindset to include these people in the workplace will take progress itself a long way.

”

Farheen Amir
Senior Executive Administrator

We are ABLE

Inclusion In The Workplace

By Sana Ayaz
Principal KVTC

Inclusion is a right, not a privilege for a select few. It simply means to embrace. Embrace all that the person is and all that the person can aspire to be.

The aim of inclusion is to embrace all people irrespective of the extent of their abilities and giving equal access and equal opportunities to them so that they flourish to the best of their potential. It is not limited to only encouraging people, but is expanded into acceptance and engagement in all social activities and roles.

Inclusion is a right, not a privilege for a select few. It simply means to embrace. Embrace all that the person is and all that the person can aspire to be.

“

I believe that the journey we embark on leading towards the achievement of our goals is that defining factor that sets each individual apart from the other – thus setting the foundation of what WE ARE ABLE to do. ”

I believe that the journey we embark on leading towards the achievement of our goals is that defining factor that sets each individual apart from the other – thus setting the foundation of what WE ARE ABLE to do.

And we at Karachi Vocational Training Centre cherish this journey of our students that not only is a metamorphic experience for them but a learning involvement for their teachers as well. We see the MORE in our students. We only see the last 7 letters in the word disability. As Robert Hensel puts it, “there is no greater disability in society, than the inability to see a person as more.”

Our family counseling ‘empowers’ families to integrate their children into their social circles, be proud of their achievements and not to focus on what they cannot do but focus on what they can do.

KVTC indulges in vocational rehabilitation that enables the child to learn a trade, a skill so that he gains employment and is 'included' in the mainstream society. We prepare our students in life skills so that they learn how to develop friendships leading to peer models, problem solving skills and developing a positive self-image.

Our social consciousness has to be reevaluated by showcasing capacity building. This can happen only when all children are given equal opportunities for education – education that compliments each child's learning style and allows him to exhibit his true potential. At KVTC we treat all students with the same esteem by designing programs that caters to all learning styles.

We promote equity by providing them state of the art tools and resources in each skill so that at par training can be achieved and when the student goes on job, he is able to handle the resources proficiently. But to achieve equitable and inclusive placements, collaboration of all stake holders must be foremost. We still require companies/employers to come forth and take responsibility of hiring the differently abled of the society.

Intellectually challenged students are the ones who face most difficulty in getting hired, because again the stigma attached that these people cannot comprehend instructions and execute tasks hinders the 5% employment quota in Sindh that has been set by the Government. We are rectifying this mindset by vocationally training our students in 5 textile units, carpentry and automotive spray painting even through a virtual simulator, but still there are no jobs in these sectors

Intellectually challenged students are the ones who face most difficulty in getting hired, because again the stigma attached that these people cannot comprehend instructions and execute tasks hinders the **5%** employment quota in Sindh that has been set by the Government.

for the differently abled. The brands of wooden accessories and textile are not coming forward to hire the special people who are carpenters, tailors, machine embroiders, block and screen printers and do exemplary zari work. It is high time that the industry sets the ball rolling for inclusion & starts hiring these talented people.

BECAUSE

Our specially abled students daily prove that

- People with intellectual challenges CAN be vocationally trained.
- They DO NOT require medication before they can perform vocations.
- They ARE ABLE to comprehend and follow instructions.
- They CAN hold down their learning well enough to ENGAGE IN EMPLOYMENT.

We are determined to exuberantly continue ENABLING THE DIFFERENTLY ABLED, because 'Determination has NO disability.' If one is able then all are able.

WHAT WE DO?

As intellectual disabilities are not illnesses, there are no treatments per se. Instead, interventions focus on identifying abilities and limitations. The goal is to provide sufficient supports that maximize each person's functioning. KVTC is the only centre in Sindh that offers a holistic solution to all rehabilitation needs of intellectually challenged persons and involves the 3 stages of rehabilitation:

Exploration

Understanding

Action

Family Counseling at KVTC

As a Senior Clinical Psychologist at KVTC, what I have observed that our trainees parents/caregivers do not or have a very minimal understanding and knowledge of their child; they lacked educational skills to stimulate the ability to socialize with their child; unaware of non-violent strategies to manage the conflicts that may result in decreasing the child's learning performance; increasing the school absences and the risk of having a bad behavior.

During the initial assessment sessions with the family and with the trainees, it became evident that there was an enormous amount of tension and anger in the families. They believed, that they had done all that they could to help their child and were at a loss as to what to do now. On the other hand, children felt that their parents were being intrusive and controlling. "Nobody loves me or understands me."

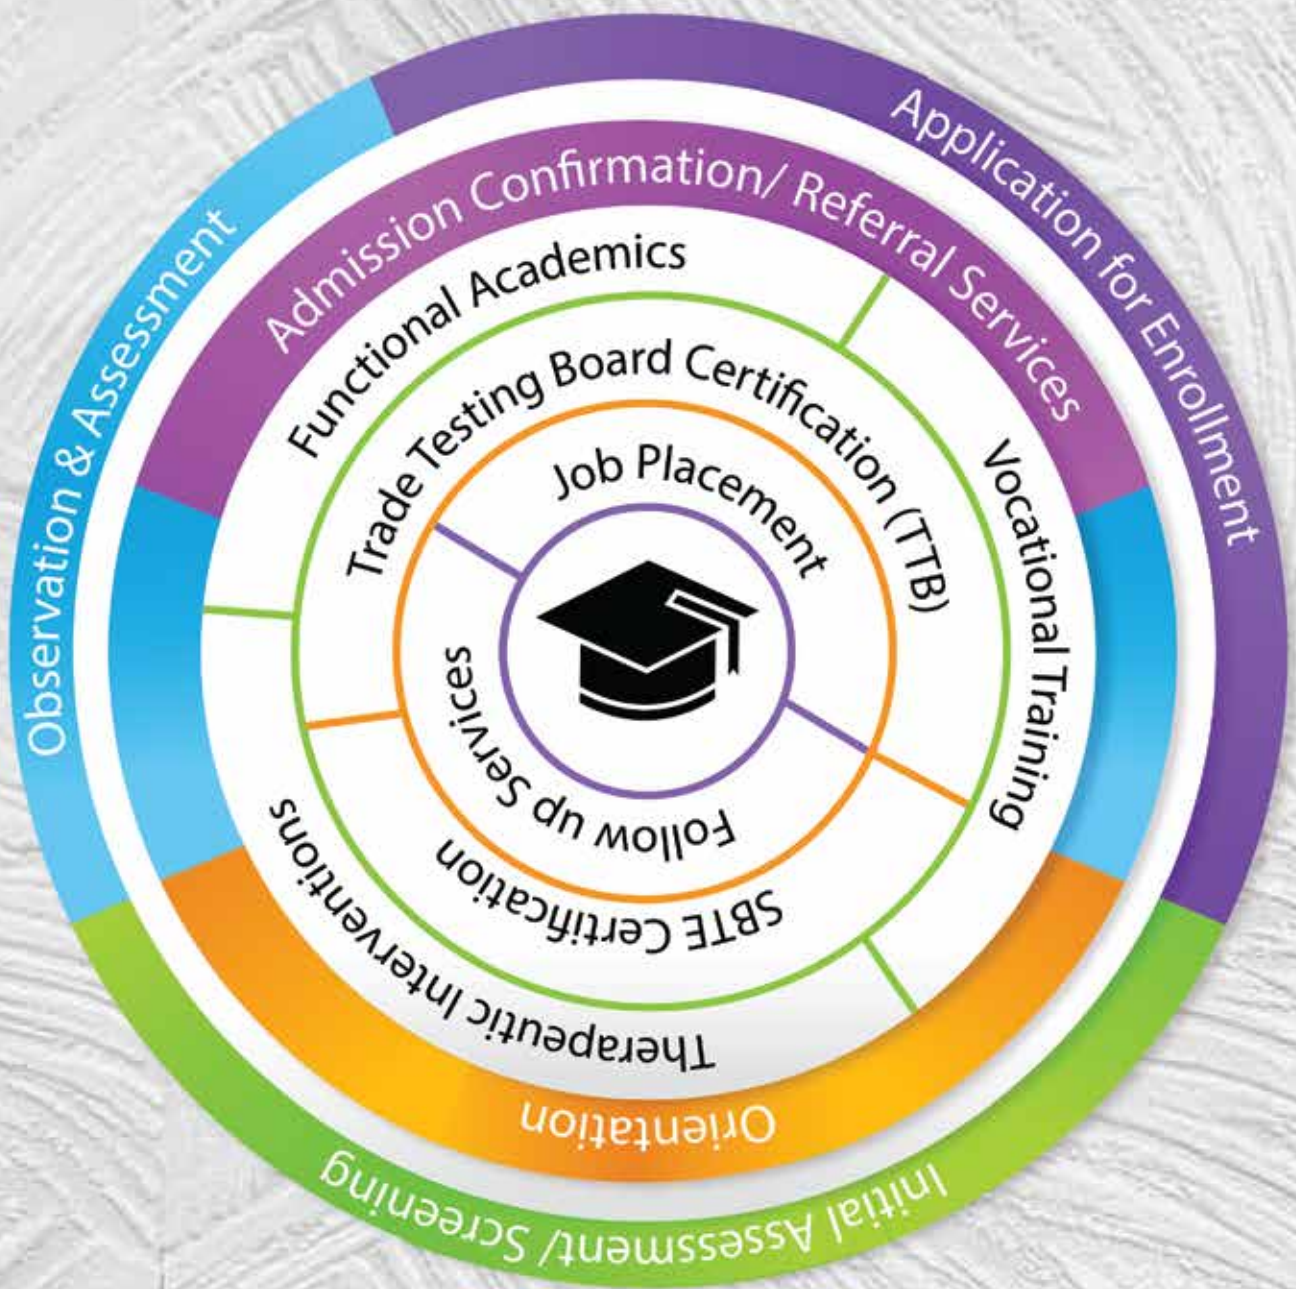

“The most valuable aspect of family counselling sessions is removing the 'blame' label from any specific member of the family and approaching the problems from a family perspective.”

The said issues are certainly not uncommon, but are examples of situations in which family counselling sessions can be of benefit to the individual child and to the entire family. Family counselling sessions can provide a means of approaching these problems in a non-threatening and caring way so that all members of the family system can feel that their concerns are being heard and each family member can participate in problem solving.

As with physical disabilities and psychological issues; the presence of mental deficits affects the whole family. The child with intellectual deficits often concurrently has social and emotional difficulties that affects school performance, peer relationships and family relationships. There is often yelling and screaming, tears of frustration and anger between parent and child.

Family counselling sessions offers a platform through which many of these issues can be brought to the surface. Often parents are unaware of how their child feels about his or her intellectual deficits and they are not even remotely aware of the pain they go through. Similarly, the child is often unaware of how his or her parents and siblings feel about the effect that the child's disability has on the family. Many of these issues come out during therapy and family members can learn to deal with these many factors. Also, family counselling can provide parents and children with successful strategies rather than fighting over homework, restriction, punishment, etc. The most valuable effect of family counselling is its ability to reinforce and strengthen family bonds. Family counselling can draw the family closer together so that family members can recognize it as a strong and healthy body that is able to effectively problem solve for all members of the family unit.

Zahrah Khimani
Senior Clinical Psychologist

KVTC Learning Wheel

SENSORY INTEGRATION

This involves the treatment of sensory disintegration disorder through state of the art sensory space helping individuals develop and engage their senses in a safe environment.

KVTC

SPEECH THERAPY

Facilitates students who have difficulty in communication, eating, drinking and swallowing. It provides oral exercises for the strengthening of mouth muscles, corrects articulation problems in people with physical or mental dysfunctioning, Developmental speech and language delay, Expressive language disorder, Receptive language disorder, Autism spectrum disorder, apraxia, Dysarthria & Intellectual disability. With the help of the Speech Language Pathologist the trainees participate in therapeutic exercises regularly.

SOUND & MUSIC THERAPY

PSYCHODIAGNOSTIC & COUNSELING

Clinical psychologists diagnose and identify developmental, emotional and behavioral problems.

Through observation, interviews and tests, the psychologist will diagnose any existing or potential disorder.

Counseling enables the students to perform to the best of their abilities with encouragement and motivation.

OCCUPATIONAL THERAPY

Occupational Therapy Unit at KVTC is an educational and practice-oriented health profession concerned with rehabilitation. In occupational therapy, the assessment process provides the baseline for intervention and often focuses on identifying and defining an individual's priorities and the factors that enable or limit his/her occupational performance.

SPORTS

Teaches fundamental movements, development of psychomotor skills & core muscular movements. The outcome is the enhancement of agility & balance coordination (ABC). Students have won medals in regional, national and international competitions, such as the Special Olympics. The Sports program is based on a UK certified curriculum.

VOCATIONAL SKILLS

Through vocational skill training we are indulging in rehabilitating people with intellectual challenges.

Gardening

Kitchen & Culinary

Art & craft

Personal Development

Carpentry

FUNCTIONAL ACADEMICS

Functional Academics teaches students skills that are required in daily living through academic concepts.

- Students are taught the basic to advanced concepts of Mathematics, English, Urdu, General Knowledge, Islamiyat & Ethics.
- Ensures students learn content and acquire knowledge.
- Creates a personalized learning experience for each student.
- Maximizes student learning efficiency.

JOB PLACEMENT

Over 500 KVTC alumni has been employed in various industries of Pakistan since 1991.

TEXTILE SKILLS

The general work place in Pakistan still has a long way to go in terms of being accessible to people with physical disabilities, whereby most employers are reluctant to hire intellectually challenged people because they perceive them to have limited or insufficient capabilities to perform jobs. This lack of awareness results in even stronger barriers for intellectually challenged people who are almost never considered for employment. While KVTC has had unprecedented success in this area, we feel that we can find employment for more intellectually challenged people through the set up of small-medium enterprises, based on the skills they learn at the centre, and the manufacture and sale of items produced and marketed by intellectually challenged people themselves.

Block Printing

Zari work

Tailoring

Machine Embroidery

Screen Printing

TECHNICAL SKILLS

Technical skills nurture empowerment through practical training where the person learns to master the intricacies of the respective trade.

Information & Computer Technology

Automotive Spray Painting

BELLAGIO BY SADAF

I have known KVTC for quite a long time now. When I was first introduced to KVTC I was amazed to see the work the organization has been doing for the betterment of the people with intellectual challenges. As I learn more and more about how KVTC uses different vocational skills training to help their students in life I felt an urge to be part of this great cause. I was excited to know that KVTC already has a personal development unit for their students. As the owner of Bellagio by Sadaf and a beauty trainer for over 20 years, experience in the Hair, Makeup and Beauty industry, I knew I could definitely be a help in order to make improvements in the department of personal development. So I decided to play my part and now I have been supporting KVTC as a consultant on designing the beauty course/curriculum and assisting the training of the teaching staff

“

I am extremely happy with all the services KVTC is providing and the high standards they are maintaining.

”

Sadaf
Bellagio by Sadaf Spa & Beauty Saloon

INAUGURATION OF BELLAGIO CHAPTER 2

KVTC and Bellagio by Sadaf joined hands to work together to provide better personal development skills of the differently-abled persons.

EMPOWERING HER

KVTC has recently partnered with Bellagio by Sadaf to provide its female students with a well-equipped beauty salon to give them beauty and personal development skills helping our female students make the most of their different abilities. CEO of KVTC Senator Abdul Haseeb Khan and Ms. Sadaf Arshad of Bellagio by Sadaf inaugurated the new venture.

INTRODUCING AUGMENTED REALITY

WonderTree and Karachi Vocational Training Institute join hands to bring forth the digital reinvention.

WonderTree uses Augmented Reality to make interactive games for motor, academic and cognitive development and education of children with special needs. WonderTree games are designed to develop physical, cognitive, language and social skills in children with special needs.

Founded in 1991, KVTC is the First Vocational Training Centre for Intellectually Disabled in Pakistan. KVTC enables them to become independent people who can play a role in the society, regardless of their disabilities.

M. WAQAS – CEO WonderTree

The collaboration between WonderTree and KVTC provides 30 children to avail the WonderGames for their cognitive and motor development. WonderTree games include fully customizable settings, immersive experiences for different target populations and real time clinically backed reporting. This collaboration also extends to digital collaboration where AR and VR Digital Simulations will be made to further extend the arena of digitalization of resources for people with special needs.

WonderTree
GAMIFYING
LEARNING
EXPERIENCE
FOR THE
DIFFERENTLY ABLED

Over the years, the relation between KVTC and WonderTree have transformed tremendously growing to serve the special needs community even more. WonderTree has always been very inspired by the service that KVTC provides to the community and towards the empowerment of people with different needs and making a part of the mainstream life. This collaboration is another step forward in this direction.

KVTC JOINED HANDS WITH UNILEVER PAKISTAN

KVTC INITIATED COVID19 RATION DRIVE FOR THE DIFFERENTLY ABLED

Karachi Vocational Training Centre initiated Ration Drive for the differentlyabled students of KVTC in the month of March 2020.

#WENOTME

The ration distribution was carried out under the We Not Me campaign as an initiative for COVID19 lockdown in collaboration with Unilever Pakistan Ltd.

The team of KVTC on their visit to the homes of our differently-abled students for the COVID-19 Ration Drive guiding the kids on how to remain healthy and safe during the Corona Virus pandemic lockdown. The team also discuss the routines of the students with their parents/guardian and gave advice on managing their routine while they are at home.

WE ARE NOW SOLAR FOR A GREENER FUTURE

KVTC recently switched to solar power and a 50 KW on Grid System Solar Solution has been installed at the centre by Rameen Renewables.

The project will help KVTC to continue its vocational and technical training and be responsible for the transition from idle hands to entrepreneurial opportunities for the differently-abled persons by engaging them in free of cost vocational rehabilitation and training. The solar panels that has been installed at the centre will reduce the rehabilitation cost that KVTC has to bear as for the trainings. By going solar, we want to show a commitment to distributed, renewable energy and to becoming more energy independent.

WE ARE NOW
USING
TODAY'S
RESOURCE
FOR A
BRIGHTER
TOMORROW

INDUSTRIAL VISITS FOR FUTURE EMPLOYABILITY OPPORTUNITIES

Educational Visit of our students to **Artistic Milliners**

A visit was arranged at Artistic Milliners by Assistant Manager Quality - Karachi Hub - Levi's Pakistan - Mr. Imran Ameen.

16 students from KVTC of the textile unit along with 4 teachers, 3 Special Educators, 1 Psychologist, and Director Rehabilitation Mr. Amir Shahab surveyed their Garments Division, Unit 14.

The purpose of the visit was to provide knowledge to the students about the textile Industry, understand technologies used by the companies, and how they operate.

On their visit, the students met the Managing Director Sujeewa Imbulgoda, Corporate Social Responsibility Officer, and Manager Operations as well.

A visit to ICI Pakistan Limited

We were invited by ICI Pakistan Ltd. to celebrate the International Day of Persons with Disabilities at their head office. We introduced KVTC & Jiddat a brand by the differently abled students of KVTC to their management and employees. We were also given an opportunity to create awareness by displaying Jiddat products and hands-on activity. The visit was a good learning experience for the students also.

A visit to Amin Maktab

Team KVTC comprising of the Principal Ms. Sana Ayaz, Director Rehabilitation Mr. Amir Shahab and Curriculum Manager Mr. Imran Sohail along with Mr. Khalid Mir visited Amin Maktab, a special education institute in Lahore. The sole purpose was to establish links for way forward with Amin Maktab and replicate their widespread Outreach Program. They visited the Amin Maktab Outreach base at Begumpura, a low socio economic community. The Outreach program facilitates the special kids within a local community, there and then through Amin Maktab's Community Resource Persons (CRPs). KVTC and Amin Maktab have shared their expertise to collaborate for the better future of special kids wherever they are in Pakistan.

「GUESTS & VISITORS」

MR. PERVEZ AHMED SEEHAR

Secretary Department of Empowerment of Persons with Disabilities

Secretary Department of Empowerment of Persons with Disabilities Mr. Pervez Ahmed Seehar visited KVTC on 16th January 2020. CEO of KVTC Senator Abdul Haseeb Khan along with the management of KVTC welcomed the guest. He was visited every skill and therapy unit and met the students. He commended the facilities provided by KVTC free-of-cost for the differently-abled persons and assures the support of the Sindh Government in this regard.

MR. MURTAZA WAHAB

Advisor to Chief Minister of Sindh

Advisor to Chief Minister of Sindh on Law, Environment, Climate Change & Coastal Development, Barrister Murtaza Wahab paid a visit to KVTC on 29th of October 2019. Mr. Murtaza Wahab met CEO of KVTC Senator Abdul Haseeb Khan and the members of KVTC's Management Committee. Later on, he was given a tour of each therapy and skills unit in the Center where he met with the students and took a keen interest in the products made by them for Jiddat and showed his love for the children. While expressing his views he said, "It was an absolute pleasure for me to have visited KVTC. The concept 'differently abled' is being effectively put to use by KVTC. This institute is a success story and should be a source of inspiration for everyone who are wanting to work for the good of the society. God bless the entire team of KVTC."

Mr. Syed Qassim Naveed Qamar

Special Assistant to CM on DEPD

On 7th February 2020, Special Assistant to CM Sindh on Department of Empowerment of Persons with Disabilities Syed Qassim Naveed Qamar visited KVTC. On this occasion Senator Abdul Haseeb Khan CEO KVTC, Dr. Sagheer Ahmed - Advisor to PODIEC were also present and they visited all the departments of the institution. Mr. Syed Qassim Naveed Qamar was briefed about the achievements of KVTC and he lauded the efforts of KVTC in enhancing the strengths of intellectually challenged children so that they can achieve their maximum potential for independent living and meaningful careers.

Seceratary Sindh for Empowerment of Persons with Disabilities

MR. KHALID CHACHAR

KVTC invited the then secretary of Sindh Department of Empowerment of Persons with Disabilities Mr. Khalid Chachar for a detailed KVTC campus tour. CEO of KVTC Senator Abdul Haseeb Khan welcomed the guest. He we given a detailed tour of every therapuetic and skill unit. He commended the facilities provided by KVTC free of cost for the intellectually challenged persons.

MR. ATEEQ UR REHMAN

Executive Director AFZAAL MEMORIAL THALASSEMIA FOUNDATION

Executive Director of Afzaal Memorial Thalassemia Foundation Mr. Ateeq Ur Rehman had a great time on his visit at KVTC. He enjoyed meeting with our students and wished them a bright future ahead.

MR. SIKANDAR SULTAN

Chairman of Shan Foods Industries

Mr. Sikandar Sultan is the founder and chairman of Shan Foods Industries. He is a visionary entrepreneur, an avowed humanist and a committed philanthropist. He took a keen interest in KVTC's efforts for the rehabilitation of intellectually challenged persons. On his visit he was welcomed by the CEO of KVTC and was given a tour of the centre's different departments and units.

MR. MUMTAZ ALI SHAH

Cheif Secretary to Cheif Minister of Sindh

Honourable Cheif Secretary Sindh Mr. Mumtaz Ali Shah on his visit met with the CEO of KVTC Senator Abdul Haseeb Khan and the Management. He expressed satisfaction over the facilities provided at KVTC and also expressed his good wishes for the institution, while appreciating the efforts of the Karachi Vocational Center for Differently Able People.

STUDENTS OF DHACSS Creek Campus

Students of A-Levels from DHACSS Creek Campus spent a day at KVTC. They toured the centre and met with the teachers and students at different skills and therapy units.

DELEGATION FROM NATIONAL VOLUNTEER PROGRAM

A delegation from National Volunteer Program visited KVTC. Through NVP many compassionate volunteers have been introduced to KVTC. They give their time and skills to KVTC which helps us do more together.

Yashma Gill

TV Actress & Goodwill Ambassador of KVTC

Famous TV actress and celebrity Yashma Gill visited KVTC on the 26th of February 2020. She spent a day with our students and showed keen interest in learning about the vocational rehabilitation being provided at the centre for the differently-abled children. She was happy to see how children enjoy their time at KVTC. The students also enjoyed her lively presence their school.

WE OWN A BRAND

“

Jiddat, as the name suggests, is about innovating the concept of learning. Through the brand of Jiddat, we wanted to provide the differently-abled a platform to practice the skills they learn at KVTC and then prepare for the next step by showcasing their work in exhibitions. Having a completely in-house clothing and home accessories brand gives our students an opportunity to not only showcase their different abilities in the job market to potential employers but also provides them a platform where they can work and earn a livelihood as an equal and active part of the society. Currently, we have 10 of our students who're now employed or working as an intern at Jiddat. Jiddat is all about going one step further from "Enabling the Differently-abled" to "Crafting Possibilities" for them.

”

MALL
KARACHI**

Fashion Designer – Jiddat

Bushra Mir, Fashion Designer of Karachi Vocational Training Centre was introduced by her husband, Mr. Khalid Mir, a philanthropist. Bushra was a homemaker till she visited KVTC!

She was automatically pulled by the exuberance of the abilities that the differently abled students of KVTC possessed - and thus began her volunteering journey, initially starting from a few hours to full time commitment.

Her passion to showcase the creativity of these students increased after observing their skills. She thus relaunched the inhouse brand 'Jiddat' with her ideas of women's apparel and home accessories made exclusively by the talented students under the supervision of their teachers/trainers. As Ms. Bushra famously says, "Jiddat with all its innovations is always ready to embark on a new journey."

KVTC has till date successfully exhibited Jiddat and now very soon is stepping into Malls displaying the hand made products on kiosks.

Jiddat has come a long way as has Bushra Mir, showing the world just how talented the differently abled are.

**“
Work for a cause, not applause
live life to express, not to impress
don't strive to make your presence
noticed.”**

Bushra Mir
Fashion Designer – Jiddat

JIDDAT STAFF

HOW CHAMPIONS ARE MADE IN CONVERSATION WITH AMIR SHAHAB

It was a fine morning of April 21st 2019, in the city of Osaka, Japan, a team of 3 differently-abled kids from Pakistan raised the Pakistan flag high with pride and made history by clinching 3 gold medals in the 17th International WATA Taekwondo Championship. It may sound simple but there were years of hardwork, practice, perseverance, and dedication that made this day a reality.

KVTC has been participating in sports since 1994 when the first batch of 55 trainees from KVTC represented Sindh in the National Games held in Islamabad. KVTC always makes sure to play an active role in every sports competition on regional, national, and international level. KVTC is the only institute that has won 1327 medals in different domestic and international sports competitions in the past 28 years. The list of achievements of our talented trainees is long enough that an entire book could be written if I go one by one. So I will try to give you an overview of what we have done so far.

In 1995, KVTC started providing Para-Taekwondo training in the Centre under the Paralympics Taekwondo Wing and since then we have been training our students and preparing them for competitions. Pakistan did not have any representation in the International WATA Taekwondo Championship until last year as three trainees from KVTC made it to the 13th WATA Taekwondo Championship 2019. It was the first time that a team from Pakistan participated in an international Para-Taekwondo competition. KVTC's trainees not only represented Pakistan but they participated with 24 other teams coming from countries all over the world. They competed with them and won three gold medals in their respective categories.

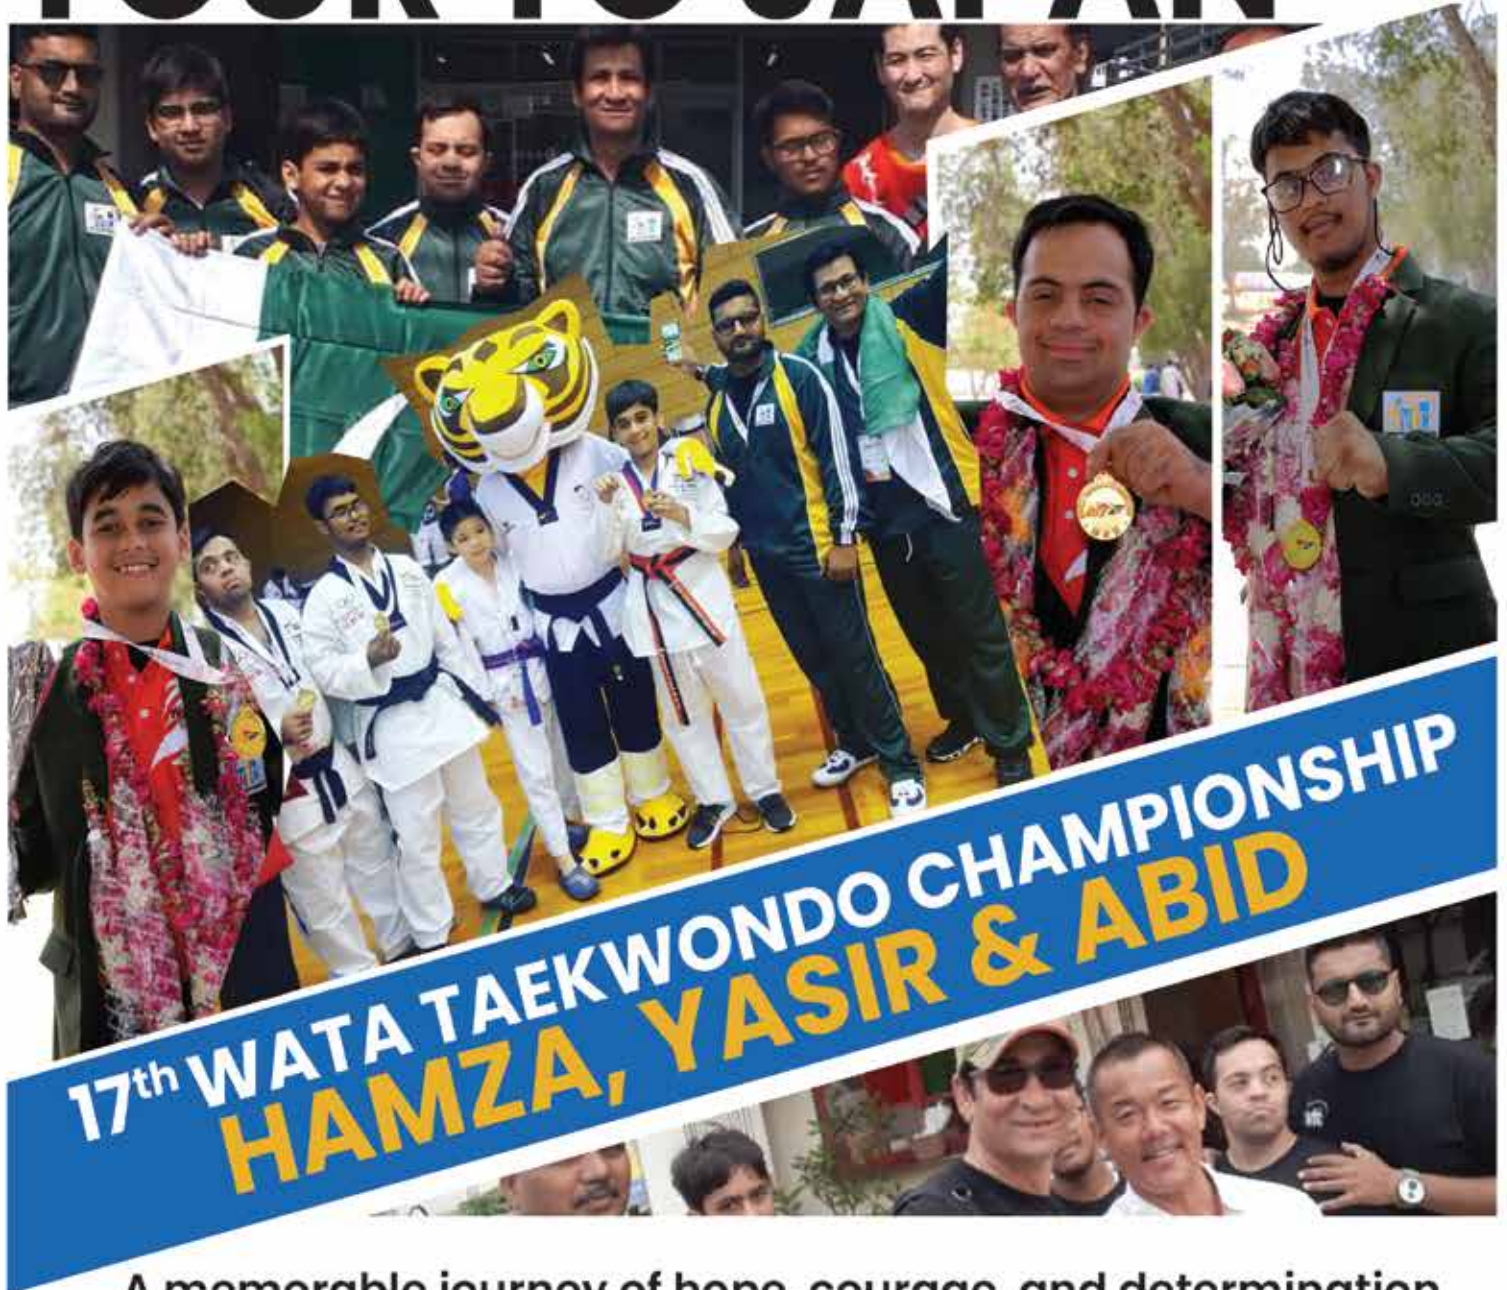

Our students have made us proud in almost every sport and not just Taekwondo. KVTC participated in World Games (Special Olympics) held in the United States in 1999 and won gold medals in swimming, table-tennis and basketball. Recently, a Unified Cricket Championship was organized in Srilanka in 2018 where our student Abdullah Imtiaz was part of the team that represented Pakistan and brought the trophy home.

Coming back to Pakistan, here in Karachi, Bazil Shaheed Taekwondo Champions Trophy is held each year from the last seven years. It is an interschool competition, in which different schools, special needs schools, and clubs participates. KVTC has been winning the Bazil Shaheed Trophy from the last six years.

OUT OF 7 CHAMPIONSHIPS THAT HAVE BEEN HELD SO FAR, KVTC HAS WON 6.

Mr. Amir Shahab has been with KVTC since the very beginning and very aptly it can be said that he is the face of KVTC. His ever robust personality is the reason he is loved by his students. Currently, he is serving as Director Rehabilitation and leading the sports at KVTC. He is passionate about developing personalities through sports and his ever available advice.

TOUR TO JAPAN

17th WATA TAEKWONDO CHAMPIONSHIP HAMZA, YASIR & ABID

A memorable journey of hope, courage, and determination

The Journey of our Differently abled students to Japan was truly an experience of a life time. Not just for the three trainees but for everyone in the squad including our sports trainer and myself. Yes, it was a big challenge for us as we have to make all the arrangements for our differently abled trainees and make sure they feel comfortable during the whole trip. It was a challenge for our trainees too, as being away from home, from their families, and travelling abroad is not easy even for many of us. There was a problem of halal food in Japan and so we took packed halal food from Pakistan and even shared with our Japanese fellows. Here I would like to appreciate the parents as they have two hundred percent trust on KVTC. They showed complete confidence in our staff and were happy that the organization cares for their children in every aspect. One thing I would like to mention here is that all the expenses incurred, from preparations for the game, during their stay in Japan to coming back home, was paid by KVTC. We made all the arrangements on our own without any government support or private sponsorship.

Our students had no foreign travelling experience prior to this trip, so for us the excitement of the journey started from the very moment we left for the airport. We were given a warm welcome at the Osaka airport from the officials of WATA. Back home we had already done enough practice sessions at the centre and so we decided to enjoy our time in Japan. We had two days before the 4-day competition and we tried to make the most of it. Our boys went out for shopping, visited one of the famous parks of Osaka and Disneyland. They experienced air travel, staying in a new country, and performing among world's best teams at an international level competition. And after all this, these boys made us all proud by performing beyond expectations and clinching 3 gold medals each in their respective categories. It was a big win not just for us but for Pakistan.

"It was a heartwarming moment when the Pakistani flag was raised and our national anthem played at an international event. It still gives me goose bumps."

– Amir Shahab

MAKING IT HAPPEN

When one visits Karachi Vocational Training Center, you will see a smiling young man Shehryar Mughal in the Block printing department designing clothes for the institute's brand JIDDAT and helping his fellow trainees. However, if Shehryar was to be seen 4 years back, he might have been difficult to recognize as if he was troubled. With a normal life till age 7, he met a severe accident and suffered a head injury. The injury took away his opportunities to study and he lost purpose in life. With some trepidation, Shehryar's parent brought him to KVTC in 2016. With proper vocational training and personality development program, Shehryar turned a new leaf. The small successes that he achieved in KVTC ignited the spark in him that made Shehryar more focused and he continued working on developing the skills to assist him in reaching where he is today. Shehryar is now a crucial part of JIDDAT's production and is an earning member of the family.

SHEHRYAR MUGHAL

// I have learned to face challenges with a smile. //

MAKING IT HAPPEN

Ghulam Mustafa Jumani or as he proudly calls himself "MJ" is a born performing artist. He can perform like a true rock star even in front of large audiences. We became aware of his different abilities when we met him 8 years ago. When we met Mustafa's parents, they were uncertain of his future. Mustafa was diagnosed with Autism Spectrum Disorder/ Speech and Language Disorder and was dealing with speech and language issues. He needed someone to understand him first before telling him what to do. He was evaluated and determined to need speech and language services and behavior modification to address his limitations. With the help of speech therapy and the support he gets from his family he has shown great improvement in his ability to speak. He is now a known rockstar in the community. After getting his confidence back, Mustafa has now turned into an enthusiastic singer and dancer and he has also performed well in the sports at different competitions.

TESTIMONIAL

My name is Muhammad Sajid Hussain. I'm a retired captain of the merchant navy. I'm the guardian of Maryam Shehzad. KVTC, I would say is a wonderful discovery for me because Maryam is born differently-abled. Allah has blessed her with different abilities, and that is why the school she was admitted in before was not fit for her. When her previous school couldn't manage to help her with her learning, I kept her at home and started looking for a better school that has the facility and expertise to understand and help Maryam and children like her with the challenges they face being differently-abled.

I heard about KVTC through some friends. Without waiting any further, I visited the Centre as soon as I could. The moment I entered KVTC, I felt a wonderful vibe. From the beginning till meeting the staff and Family Relation Manager, I was left with an excellent impression.

Maryam's family cannot afford her educational expenses and as a guardian, I was taking care of all her expenses. When KVTC informed me that she will be getting all the education and vocational rehabilitation free-of-cost, I was very glad that now there will be no hurdles for Maryam in getting a quality education.

I have been attending all the functions at the Centre and often had a chance to meet the CEO of KVTC Senator Abdul Haseeb Khan. After meeting with him I would say, he has a kind and compassionate nature or I would like to say, "He is a father figure for the children learning at KVTC". The same compassion and dedication also reflects in all the staff of KVTC. The professionalism practiced at KVTC is also commendable and I always appreciate it.

I can never thank KVTC enough for what they are doing for Maryam and for other differently-abled kids. My support and prayers will always be with the organization.

GUARDIAN OF MARYUM SHEHZAD
Student of KVTC

TESTIMONIAL

I found out about KVTC at an exhibition at Expo Centre. I was there with my wife and we saw the stall of KVTC. We were informed about the services KVTC provides and on our return home we decided that KVTC would be the perfect place for our son.

Alhamdulillah, it has been two years for Mughees in KVTC and we have witnessed great improvement in him. If I tell you academically, prior to KVTC, Mughees was only able to memorize and write one or two words but now, Alhamdulillah, Mughees is able to memorize two to three sentences and he can write them as well without mistakes.

Now, my son takes interest in doing school work. He is always ready and excited to go to his school (KVTC). This shows that he really enjoys his time at KVTC. The appreciation he gets from his teachers boosts his confidence and increases his interest in learning more and more, whether it is academics, vocational skills, or extra-curriculum activities. Mughees was a shy kid but the improvement he is making at his school helps him gaining confidence when it comes to socializing.

From the depth of my heart, I pray for all the dedicated staff of KVTC and whoever is connected to it and wishes that may the centre continue to prosper.

INDEPENDENT AUDITOR'S REPORT

To the members of **KARACHI VOCATIONAL TRAINING CENTRE
FOR THE INTELLECTUALLY CHALLENGED**

Report on the Audit of the **FINANCIAL STATEMENTS OF JUNE 30, 2020**

Opinion

We have audited the financial statements of **Karachi Vocational Training Centre For the Intellectually Challenged** (the Centre) which comprise the statement of financial position as at June 30, 2020 and statement of income and expenditure, statement of cash flows for the year then ended, and notes to the financial statements, including a summary of accounting policies.

In our opinion, the accompanying financial statements present fairly in all material respects, the financial position of the Centre as at June 30, 2020 and of its financial activities for the year then ended in accordance with the approved accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Centre in accordance with Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidences we have obtained are sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Executive Committee of the Centre is responsible for the preparation and fair presentation of the financial statements in accordance with the approved accounting and reporting standards as applicable in Pakistan, and for such internal control as the Executive Committee determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Executive Committee is responsible for assessing the Centre's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Centre or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Centre's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error,

and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decision of user taken on basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide basis for our opinion. The risk of not deducting a material misstatement resulting from fraud is higher than for one resulting, from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Centre's internal control.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.
- Concluding on the appropriateness of management's use of going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Centre's ability to continue as going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures that are inadequate, to modify our opinion. Our conclusions based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Centre to cease to continue as going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in the manner that achieve fair presentation.

We are communicating to those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
